Wash affected area immediately with large amounts of soap and water. If irritation develops or persists, seek medical attention.

Ingestion

DO NOT induce vomiting. Seek immediate medical attention.

Self-protection of the first aider

Most important symptoms and effects, both acute and delayed:

Low toxicity. Slightly irritating, but will not injure eye tissue.

Indication of any immediate medical attention and special treatment needed:**Note to physicians**

Treatment based on sound judgment of physician and individual reactions of patient.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use DRY chemicals, CO2, alcohol foam or water spray.

Special hazards arising from the substance or mixture

None

Hazardous combustion products

Carbon monoxide. Carbon dioxide. Smoke

Special protective equipment for firefighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

Unusual fire/explosion hazards

Rags and other materials containing vegetable oil could potentially heat and spontaneously ignite if exposed to air.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment as required. See section 8 for more information. Ensure adequate ventilation.

Environmental precautions

Refer to protective measures listed in Sections 7 and 8. Prevent further leakage or spillage if safe to do so.

Methods and materials for containment and cleaning up

Stop leak if you can do it without risk. Do not touch or walk through spilled material. Dike far ahead of liquid spill for later disposal. Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid contact with eyes and skin. Avoid inhalation and ingestion. Oil soaked clothing should be immersed in water immediately to prevent spontaneous combustion. Use under well ventilated conditions. Wash skin thoroughly after handling and before eating or smoking. Use good industrial hygiene practices in handling this material.

Conditions for safe storage, including any incompatibilities

Do not store in open, unlabeled or mislabeled containers. Keep container tightly closed. Store in a cool, dry, well-ventilated area.
