

# SURF – PRO

TIME SAVER SURFACE CLEANER

## TECHNICAL DATA SHEET

Name: **The INTELLIGENT SEALER NO SHINE**

Code: BO-1200-1/ BO-1200-4

MADE IN CANADA

### 1.1 PRODUCT DESCRIPTION:

The INTELLIGENT SEALER NO SHINE is the perfect solution for sealing your porous tiles while maintaining the natural look you're looking for. The silicone-free formulation prevents the penetration of water and all the greasy substances that can be deposited on your tiles especially in the kitchen.

### 1.2 USES:

Interior and exterior: Porous stones such as slate, terracotta, travertine, brick, concrete block, grout, cement fiber, granite and unpolished marble.

### 1.3 CHARACTERISTICS:

- Premium sealant without silicone.
- Resistant to grease and easy to clean.
- Preserves the natural look of stones.
- Formulated with water.
- Low in VOC.

### 1.4 RESTRICTIONS:

- Application temperature between 15- and 25-degrees C.
- Do not apply on granite and polished marble (kitchen counter top).
- Avoid freezing.

**1.5 GUARANTEE:** The high quality of this product is guarantee under the descriptions available on this technical data sheet and the labels. the manufacturer guarantee is limited only on the quality of the product and to the refund price of it. this product will give total satisfaction if store and utilized in conformity with the manufacturer directives.

**1.6 NORM:** Comply with VOC standards.

### TECHNICAL INFORMATION:

**2.1 Compositions:** Fluorinated acrylic copolymer.

**2.2 Container size:** 850 ml    UPC code 775115012001  
3.78 Liters    UPC code 775115012018

**2.3 Appearance:** Odorless and colorless liquid.

**2.4 Storage:** Stored in a dry and ventilated place. Avoid freezing. Keep containers closed.

### 2.5 Physical and chemical properties:

Boiling point	100 degree
Freezing point	-4 degree
Water solubility	100 %
Viscosity	N/D

### SAFETY MEASURES:

Releases dangerous fumes when mixed with other products. May irritate eyes, irritate skin, do not mix with other home chemicals.

Do not inhale fumes. Avoid contact with eyes. Avoid contact with skin or clothing.

Keep out of the reach of children.

### APPLICATION PROCEDURES:

#### 3.1 SURFACE PREPARATION:

The surface must be dry, clean and free of wax, sealer or finish. New installations must be dry 48 hours before application. Protect nearby surfaces.

Test the product in a discrete area to make sure the results are the ones you want.

**3.2 APPLICATION INSTRUCTIONS:** Shake the container before use. Wearing gloves and safety glasses is recommended during the application.

**New surface:** Make sure the stones are totally dry.

The Sealer can be applied 48 hours after grouting. Apply 2-3 coats either with a clean sponge, paintbrush or paint applicator. Let dry between 30-60 minutes between each layer

**Existing Surface:** The surface must be clean, dry and free from waxes or any other finishing product such as silicone, wax or oil sealant. To know if you have a finishing product on your surface, simply spray water on the tile. If the water pearls it means that you still have finishing product. To remove the finishing product, you can use the Intelligent Glue buster of Surf-pro.

**Pre-joint sealant:** Apply a coat 2 hours before applying grout. This will prevent the grout from staining the stone.

**3.3 COVERING POWER:** It is difficult to accurately determine the required amount of sealant for a surface. Be aware that a porous surface will require more sealant than a polished surface and the first layer absorbs much more than the 2 and 3 layers. An 850 ml container should cover approximately 8 to 22 m<sup>2</sup> (85 to 230 sq. FT.).

**3.4 CLEANING:** Hands and tools can be cleaned with soap and water immediately after use.

#### 3.5 DRYING TIME:

The INTELLIGENT SEALER NO SHINE is totally dry after 24 hours.

**FIST AIDS:** Contains fluorinated acrylic copolymer.

If swallowed, call a Poison Control Center or doctor immediately.

Do not induce vomiting.

In case of eye contact, rinse with water for at least 20 minutes.

In case of skin contact, rinse well with water.

If inhaled, take the exposed person to fresh air.

### JP'S TIPS :
