

SURF – PRO

TIME SAVER SURFACE CLEANER

TECHNICAL DATA SHEET

Name: **The Ultimate Vinyl Care**

Code: BO-5000-1

MADE IN CANADA

1.1 PRODUCT DESCRIPTION:

The Ultimate Vinyl Care is a close relative of The Intelligent Floor Cleaner except that its magnetic polymer is more concentrated for different types of vinyl flooring. Slightly alkaline soap with V.O.C (Organic Vibration Component) technology developed by Surf-Pro. It's like activating thousands of little brushes by mixing it with water. Result, it cleans all types of vinyl flooring surface (smooth, rough, porous, cracked, delicate, glossy etc.) No need to rinse and leave no sticky film like most conventional soaps. The Ultimate Vinyl Care is biodegradable.

1.2 USES: Use without leaving sticky residue. The Ultimate Vinyl Care is compatible with different types of vinyl flooring such as WPC (wood-plastic-composite) LVT finish (luxury Vinyl Tile) SPC (stone-plastic-composite) In most cases, no rinsing required.

1.3 CHARACTERISTICS:

- Biodegradable
- Leaves no sticky residue
- The Ultimate Vinyl Care eliminates the phenomenon of footprints.
- On these surfaces mentioned above, it is useless to rinse. Contains no solvents, no glycol and no ammonia that can damage these vinyl floorings. It's safe for children and pets.

TECHNICAL INFORMATION

2.1 Composition: Product composed of a magnetic polymer unique to Surf-Pro. Without glycol, not harmful to small children and animals.

2.2 Container size: HDPE plastic containers 850ml
○ 850ml Concentrate UPC 627978050006

2.3 Appearance: Yellow liquid at very gentle sea breeze scent

2.4 Physical and chemical properties:

- | | |
|---------------------------------------|-------|
| • Boiling point | 98 °C |
| • Freezing point | 5 °C |
| • Water solubility | 100 % |
| • Viscosity | N/D |
| • Density (g/cm ³ à 25 °C) | 1.02 |
| • PH | 9.7 |

APPLICATION PROCEDURES

3.1 APPLICATION INSTRUCTIONS:

The Ultimate Vinyl Care is a special organic product that takes all its power in the water. Mix 100ml of Soap or the equivalent of a quarter cup with 4 to 5 liters of warm water. Wash the surface either with a mop, sponge or applicators sold in stores. Make sure they have not been washed with softener. It is useless to rinse dry. If this is the first time you use The Ultimate Vinyl Care, a second wash would be recommended to be sure to have removed the deposits left by the alkaline soaps.
