VOCs AND HEAVY METALS: None

TECHNICAL DATA SHEET

LIMITATIONS:

- The treated surface must be free of paint, varnish, stain, or any other product. For the best results, work on a slightly sanded, smooth, dry and dust- free surface.
- Results may vary depending on the type of wood used.
- INSTABLACK is effective only on wood.
- Bamboo is a grass, not a tree, so. INSTABLACK treatment is not compatible.
- Do not use on metal surfaces.
- INSTABLACK is not recommended for treated wood surfaces. The chemicals used in treated wood form a barrier preventing the product from achieving optimal results. There may be a slight discolouration.
- INSTABLACK does not contain UV protection. Colour may change over time depending on exposure.

APPLICATION:

For application instructions, refer to the user guide included in your INSTABLACK kit or on our website: www.adaptinnov.com.

WARRANTY:

The consumer assumes full responsibility for the results when applying the product in accordance with the instructions in the user guide. The manufacturer's liability is limited to the replacement of the product.

FIRST AID:

The product may irritate skin. Wear gloves to avoid direct contact with hands. In case of contact with eyes, rinse thoroughly with plenty of water. In case of accidental ingestion, do not induce vomiting; call a poison control center and consult a doctor. Keep out of reach of children and animals.
