

# TECHNICAL DATA SHEET

## RESTORER MULTI-SURFACE RÉNOVATEUR

- **3-IN-1 ACTION:** RESTORE, PROTECT & LASTING PERFORMANCE
- **REVIVES** FADED COLOR AND RESTORES ORIGINAL LUSTER
- **ECONOMICAL:** HIGH COVERAGE
- **MULTI-SURFACE:** STONE, PLASTIC, PAINT, METAL, WOOD...
- **INDOOR / OUTDOOR**

### BENEFITS & FEATURES

- Universal 3-in-1 restorer for a wide range of surfaces.
- Revives dull surfaces and enhances the original color.
- Protects against water and stains.
- Long-lasting effect: UV- and weather-resistant. Maintains appearance and protection over time.
- Economical: excellent coverage, requires only a small amount of product.
- Ready to use, no preparation required.

### USES

- For indoor and outdoor use on all surfaces.
- Ideal for all types of materials: PVC or wood furniture, car bodies and bumpers, plastic, furniture and accessories, walls, doors, shutters, etc.

### HOW TO USE

#### Preparation of support :

- Apply the product to a clean, dry surface free of dust and grease.

#### Application :

- Shake the package thoroughly before use and use the pure product: do not dilute or mix with another product.
- Carry out a preliminary test on a small area.

#### STEP 1: APPLY

- Apply in one thin and regular layer with the microfiber cloth.
- Do not overload the support; all of the product must penetrate the surface.

#### STEP 2: WIPE

- After 10 minutes, the treated material must be wiped off and polished with a lint-free microfiber cloth.
- Drying protected: 24 hours.

## COVERAGE

The following values are for guidance only:

- 1 bottle = approx. 2 doors + 10 windows or  $\pm 10 \text{ m}^2$ .

## SIZE

- 120 ml bottle.

## MAINTENANCE

- Clean regularly with water or a pH-neutral cleaner.
- Depending on wear, reapply a new coat directly after standard cleaning—no stripping required.

## CLEANING OF TOOLS

Clean tools and equipment with mineral spirits immediately after use.

## TECHNICAL DATA

- Chemical nature: Polysiloxane blend
- Physical state at 20°C: Liquid
- Color: Colorless
- Odor: Characteristic
- pH: N/A
- Flash point: 40°C
- Boiling point: 180°C
- Density:  $1.03 \pm 0.02$
- Water solubility: No
- VOC: < 160 g/L

## STORAGE

- Store in a dry place between 5°C and 30°C.

## PRECAUTIONS FOR USE

- Always use in a well-ventilated area. Otherwise, wear an ABEK-type mask.
- Perform a preliminary test to confirm the desired result.
- Thoroughly wipe the entire surface with a microfiber cloth. Failure to do so may result in excessive gloss or a slippery surface when wet.
- Protect surrounding surfaces that should not be treated. In case of splashes, clean immediately.

## APPLICATION CONDITIONS

For optimal performance:

- Apply only when surface temperature is between 10°C and 30°C.
- Do not apply in rain or extreme heat.
- Ideal air temperature: between 10°C and 30°C.
- Do not apply on surfaces in constant or prolonged contact with water.

## HEALTH / SAFETY

- For frequent or prolonged use, consult the Safety Data Sheet (section 8.2).

Protective equipment:

- Respiratory: Not required under normal conditions with adequate ventilation.
- Hands: Wear latex gloves.
- Skin: No special protection required under normal use.
- Eyes: Wear protective goggles if there is a risk of splashing.

In case of ingestion:

- Do not induce vomiting. Contact a physician or poison control center immediately.

**KEEP OUT OF REACH OF CHILDREN.**

### IMPORTANT NOTICE

The information provided is based on our experience with the product. Guard Industrie guarantees product quality but cannot be held liable for improper use, including:

- improper application
- use by unqualified personnel
- combination with incompatible products
- unfavorable weather conditions

For more details, refer to the Safety Data Sheet.
