## Lime Wash Base Coat

*Mineral Based Primer*  
*Interior/Exterior*  
*Low VOC / Eco-Friendly*

Meoded's **Lime Wash Base Coat** is a premium-quality, water-based, 100% acrylic primer formulated to be used as a base coat for Meoded Lime Wash. This primer serves as the base coat for both interior and exterior Lime Wash applications. The easy-to-use formula is created to properly absorb Meoded's Lime Wash to help achieve the right finish for your project. For best results, two coats are recommended.

### NEW SURFACE

Surface should be smooth, clean and dust free. Prime the substrate with the recommended water based primer as required; such as a PVA primer for drywall, multi-purpose primer for wood or glossy surfaces, and let it dry fully. Next, apply two coats of Meoded **Lime Wash Base Coat** allowing it at least 5-8 hours to dry.

### EXISTING SURFACE

Any surface with sheen should be sanded, dust free, and then primed with a multi-purpose primer letting it dry fully. Next, apply two coats of Meoded **Lime Wash Base Coat** allowing it at least 5-8 hours to dry. Preparation of flat surfaces requires only the application of Meoded **Lime Wash Base Coat**.

### APPLICATION

**Lime Wash Base Coat** can be brushed, rolled, or spray applied. Apply only when the surface and air temperatures are between 50°F-95°F. Do not apply under high humidity or if rain is expected within 24 hours. Use a water-based universal primer first when going over oil-based paint.

### COVERAGE

Lime Wash Base Coat covers between 200-350 sq. ft per **gallon** depending on surface texture and porosity.

### PREPARATION

Masking - Tape, mask and cover adjacent surfaces to protect them from splatter.

### TINTING

It is recommended to tint the base coat to a similar color to the desired finish color when applying dark colors of Lime Wash.

### VOC

Material contains less than 50 grams per liter (0.278 lb. / gal.) Volatile Organic Compounds.

### CLEAN UP

Remove temporary protection, such as masking tape and covers. Clean up spills and splatters using methods that will not damage the surfaces.

### DELIVERY, STORAGE AND HANDLING

Keep materials away from direct sunlight. Store them in original, unopened packages in a dry, dark location at temperatures between 45°F-95°F. Always wear OSHA-compliant eye protection. Wear a respirator to sand or scrape the product. Work only in well-ventilated areas. Avoid prolonged skin contact. Avoid working with the material in temperatures below 50°F-95°F. Keep away from children. Do not use products older than one year. Read the entire SDS and product labels.

### AVAILABILITY

Meoded products are sold through the company's network of distributors throughout the United States. Contact Meoded or visit our website [www.meodedPaint.com](http://www.meodedPaint.com) for referrals to local sources.
